- A. rebound
 - B. referee
 - C. block
 - D. dribbling
 - E. steal

ESSAY

1. Describe the "bet" in table tennis (shape, color, etc)
2. What is your favorite sport? Explain the reason!
3. Translate the paragraph below:

Badminton is one of the most well known games in the world. However, it is not well known that, at a competitive level, badminton demands many qualities from the shuttler: speed, strength, agility, stamina, skills, accuracy, smartness, mental power and team work. Great techniques and physical fitness alone is not enough to win a badminton game, a successful player must play smart. Using quick thinking to adapt his/her play to the opponents tactics and weaknesses. Using varying speed and position and deceptive plays to earn a edge over the opponent. In the court, the players are left to their own, help is not available from anyone. The player must maintain high concentration and will power, the game hasn't ended if the scoreboard doesn't say 15.

**--good luck—
